---

## **Get Ready, Get Set, Kindergarten**

This class is designed to bridge the gap between preschool and Kindergarten for our Sayville youngsters! Calendar, story time, crafts, and snack are structured to help ease students into the Kindergarten routine. This class is intended only for students entering Kindergarten in September of 2019.

**Course #1 Session 1: Kindergarten**

**Course #2 Session 2: Kindergarten**

## **Stories and Crafts**

Students will read exciting summer stories and create a craft to take home that goes along with the story. This class is intended to work collaboratively with Get Ready, Get Set, Kindergarten. This class is intended only for students entering Kindergarten in September of 2019.

**Course #3 Session 1: Kindergarten**

**Course #4 Session 2: Kindergarten**

# SCOPE Summer Explorations Program at Sayville Middle School

*STUDENTS ENTERING 1<sup>ST</sup> - 6<sup>TH</sup> SEPTEMBER 2019*

---

## COMPUTERS & CODING FOR KIDS

Calling all kids that like to use computers. Campers will be introduced to safe use of web based applications to fix photos, draw pictures, create videos and stories. Students will also learn block coding which is the basics of computer coding. Campers will be able to have a ton of fun learning how to use their computers to do things they never imagined! **NO SOFTWARE IS NEEDED TO USE THESE SKILLS and APPLICATIONS AT HOME.**

**Course #5 Session 1: Grades 3 - 6**

## EDIBLE SCIENCE

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Ever construct the layers of the Earth and claim you have eaten the world? Come join us and learn about Science and then eat what you learned!

**Course #6 Session 1: Grades 1 - 3**

**Course #7 Session 2: Grades 3 - 6**

## ESCAPE THE ROOM

Up for a challenge? You're in a room and the only way out is to use critical thinking skills and teamwork. In this class, you will have fun using reasoning, analysis and evaluation to solve puzzles and games. You will work independently and in groups to complete challenges. Your culminating activity each week will be to work together to Escape the Room!

**Course #8 Session 1: Grades 3 - 6**

**Course #9 Session 2: Grades 2 - 5**

## EXPLORE THE WORLD OF POLYMERS Shrinking, Stretching, Oozing, and Bouncing!

Do you love science? Then you'll love this hands-on science class where students will create gak, slime, glue, shrinky dinks, and more! We will shrink plastic to make jewelry and test the strength of water balloons for outdoor fun. You are invited to come and create glowing gel and make snow in the middle of summer!

**Course #10 Session 1: Grades 1 - 4**

**Course #11 Session 2: Grades 1 - 4**

## FUN WITH SCULPTURE!

Do you love to build in 3D or would like to learn more about how to turn an idea into a sculpture? If so, then this class is perfect for you as you will learn many hand building techniques to create clay masterpieces! You will start by putting your ideas on paper and letting your creativity and imagination guide you. Then you will be able to build and paint a 3D design and see your imagination come to life. This class is ultimately geared towards an individual's self-expression and creativity. Come join the fun and don't forget to bring your smock and imagination!

**Course #12 Session 1: Grades 1 - 3**

**Course #13 Session 2: Grades 3 - 6**

## FUNTASTIC FITNESS

Enjoy the benefits of the "fitness experience" that promotes a healthy lifestyle. Children will work cooperatively with others, while participating in a variety of traditional and non-traditional summertime fun activities, games, and sports. Get ready for an unforgettable summer!

**Course #14 Session 2: Grades 1 - 3**

## MAKERSPACE - EXPLORE, DESIGN, BUILD, CREATE!

Calling all kids! We need your creative minds to explore, invent and problem solve through hands-on learning tasks. You will work both individually and collaboratively on STEAM-based activities (Science, Technology, Engineering, Art & Math). Get ready to create things like luge tracks, obstacles for marbles, circuits, and simple pneumatic machines.

**Course #15 Session 1: Grades 2 - 5**

## OUTDOOR ADVENTURES!

Are you looking forward to a fun and exciting summer? Well get ready with outdoor adventures, which will get your heart pumping and keep the smiles and laughter coming. In this class you will play fun games like Ultimate Frisbee, wiffle ball, lawn bowling, and so much more. Don't worry about the rain, as we have plenty of fun and exciting indoor games to play as well. So if you're ready for another thrilling and exciting summer, then sign up today for Outdoor Adventures and let the fun begin.

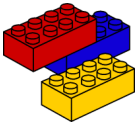

**Course #16 Session 1: Grades 3 - 6**

## ROCKET CAMP

This course is for anyone who has looked up at the stars and wondered how amazing it must be to fly up there. In this class you will learn all about different types of flight, blimps, aerodynamics, living in space, as well as other fascinating topics. Students will design, create, and launch their own rockets in this exciting class. 3, 2, 1...Blast off!

**Course #17 Session 2: Grades 3 - 6**

## SCIENCE THROUGH LEGO ENGINEERING

Our LEGO engineering program includes STEM based challenges and free building experiences. They will use LEGOs in ice to discover how archaeologists work to uncover fossils. We will test the laws of physics by building bridges and skyscrapers and test their stability in simulations. Your kids will work to problem solve and will love rising to the LEGO challenge.

**Course #18 Session 1: Grades 1 - 3**

**Course #19 Session 2: Grades 3 - 6**

## SUMMER ARTS & CRAFTS

Do you like to paint, draw, and build things out of clay? In this class we will explore different cultures and artists around the world. If you love art and enjoy learning new things, then this is the class for you! Just remember to bring your imagination and let the fun begin. We might get messy, so don't forget to bring your smock!

**Course #20 Session 1: Grades 1 - 6**

**Course #21 Session 2: Grades 1 - 6**

## TASTE THE RAINBOW

Are you hungry? Look no further! In this class students will Taste the Rainbow including breakfast, snacks and frozen desserts too. Students will discuss the benefits of eating a variety of colorful foods that will help them grow strong and healthy. They will have the opportunity to prepare and taste rainbow recipes. Now's the time to try new and colorful foods! The little chefs will create their very own unique cookbook filled with all of their creations throughout the course. The kitchen classroom is the tastiest place to learn and have fun! Bon Appétit!

**Course #22 Session 1: Grades 3 - 6**

**Course #23 Session 2: Grades 1 - 3**

## WILDERNESS SURVIVAL

Have you ever wondered what its like living in the wild? What do you need to survive? The important things to survive include food, water, and shelter. Activities will include, but not limited to; camping gear, shelter building, fishing and knot tying skills, hiking skills, navigating, and safety skills. GPS and compass use will be introduced and practiced as you work in small groups for point to point scavenger hunts. All students will create bamboo fishing poles to take home and use over the summer. You will also practice the vital skills of teamwork, problem solving, and collaboration. Just bring your excitement and dress for the great outdoors and let the fun begin.

**Course #24 Session 2: Grades 3 - 6**
