

Creating Your Family Account Profile

SCOPE Education Services is transitioning to a new online tool to register and manage your child care, pre-kindergarten, and enrichment registrations. Below are steps to create a profile and manage your family account.

Create Your Account Profile

1. Browse to the website: <https://scopeonline.ce.eleyo.com>
2. Create your profile by selecting **create an account profile** on the main welcome page.
3. When creating an account within the system, you will be required to enter your basic contact information including an email address (used for logging in) and a password. If your email address is recognized, use the *Send Forgot Password Email* to receive a password set email.
4. Select **Create Account** at the bottom of the *Register a New Account* page. You will be directed to your profile management screen where you can create family members within your profile.

NOTE: An email will be sent from Eleyo with a link to verify your account. Use the *Verify Your Email Address* button on that email to verify your account.

Add Family Members and Emergency Contacts

1. Use the **Add a Relationship** button to add all family members.
NOTE: When adding a grade for a Pre-K student, select Kindergarten and the year your child will be entering Kindergarten (you may edit this at a later date if needed). Please use the table to the right to determine the entering school year for Kindergarten.
2. Select the **Create Person** button.
3. After you have finished setting up the people associated with your profile, select the **white house icon** in the top, left area of the screen then select **Explore All Programs** then **Your Dashboard**.
4. On the left, under the **Manage Family Members** section, use the **Add Emergency Contacts** button to add new emergency contacts. Use the **Edit Emergency Contacts** button to update that information. In order to prevent creating duplicate users in the system, when adding an emergency contact that is already part of your profile, please select **Add Emergency Contact** then search for or select the name from the list of existing users that are presented.
