Crafty Corner

Do you love to be creative and showcase your artistic talents? In *Crafty Corner* you will get to design things that you can use at home with your family and friends. You will get to design mini-flower pots, create bugs and butterflies, birdhouses, mosaic tiles and much more! The best part is you can design it however you want! Let's get creative in *Crafty Corner*!

Coding and Technology for Kids

Have you ever wondered how to code a video game, create animations or your own story on the computer? Want to have fun on the computer and get creative? We will explore computer science through coding, educational websites, videos and unplugged lessons.

LEGO Land

Are you looney for LEGOS? In this fun and creative class, kids have an opportunity to explore how to build various LEGO designs using an assortment of LEGOS. Kids will be provided with a selection of LEGO project choices daily, that will challenge their problem-solving skills to recreate popular designs. They will have the opportunity to be creative and make their own designs as well! Have fun and become a master at building with LEGOS!

Cooking Up a Storm

Get your chef hats and aprons ready! Students will jump into the kitchen learning how to make a variety of healthy and fun recipes. This class will be filled with hands on mixing, kneading and baking. Kids will even leave with a personal recipe book to use at home! **If your child has food allergies we will make every effort to accommodate his/her needs, but please be aware that all ingredients are not guaranteed to be free of all various allergens.**

Can you STEM?

Do you love science? Are you ready for some winter fun? Then you will love this hands-on class where students create snow, frozen slime and more! You will learn how to construct a model of your own inventions such as sledding ramps and snow structures. You will love this hands-on class where you become a scientist!
