Course Descriptions

Awesome Art Activities

Creativity will soar as children create and take home beautiful works of art using various art materials including paints, clay, and more!

Computer Arts

Children will practice important computer skills and explore the wonders of what the computer has to offer including coding, graphic design and more!

Funtastic Fitness

Children will participate in various games and activities that will help them stay active: run a wacky race, have a beanbag toss, play sports, and more! They will have tons of FUN with friends while improving physical fitness and teamwork skills.

Music, Movement & More

Children will work on fine and gross motor skills by participating in movement and music activities. Different organized activities will keep the children running and jumping and playing!

Stories & Crafts

Children will read exciting stories by beloved authors and create crafts to take home that go along with the stories.

Strategic Games

Children will challenge their mental capacities by playing popular board games and solving puzzles. Activities will incorporate aspects of socialization, fair play, and collaboration. Children will engage in challenges like chess, checkers, 3-D puzzles, etc.
