COURSE DESCRIPTIONS

Art, Paper, Scissors

Join us in creating a variety of sensational projects. Get creative and have fun while using materials such as watercolors, clay, paint and more. Preserve your clothes and bring a smock!

Chef School

Put on your chef hat and get ready to cook! Students will learn how to make a variety of fun and healthy recipes that they can enjoy taste testing in class! Students will create and design a recipe book to bring home so they can showcase their new cooking skills for the family! ***If your child has food allergies we will make every effort to accommodate his/her needs, but please be aware that all ingredients are not guaranteed to be free of all various allergens.**

Coding for Kids

Have you ever wondered how to code a video game, create animations or your own website? Want to have fun on the computer and get creative? We will explore computer science through coding, educational websites, videos and unplugged lessons. Students will be well on their way to becoming the computer scientists of the future!

Computer Club

In this exciting class we will explore all kinds of technology. The students will investigate fun, educational websites, programs and more.

Cool Cooking

Get out of the hot sun and come to this "cool" cooking class. Everything made will be cold delicious items that you will LOVE to cook and eat. You will make home-made ice cream, slushy's and smoothies, rainbow rice crispy treats and masterful creations with fruits and vegetables. ***If your child has food allergies we will make every effort to accommodate his/her needs, but please be aware that all ingredients are not guaranteed to be free of all various allergens.**

Creative Writing

Using imaginative prompts and fun games, we will create unique stories, poems and comics. Write about your favorites such as sports, baking, music, and movies. The possibilities are endless!

Edible Science

Have you ever wondered how things work? Discover, explore, and learn about our wonderful world through tasty science experiments! Eat slime! Construct the layers of the Earth and claim you have eaten the world! Come join us and explore the possibilities! ***If your child has food allergies we will make every effort to accommodate his/her needs, but please be aware that all ingredients are not guaranteed to be free of all various allergens.**

Fitness Fun in the Sun

Fitness Fun in the Sun is a program where children will participate in various games and activities that will help students stay active! Children will have fun taking part in creative games that help develop different fundamental skills for all age levels! Students will enjoy cooperative games to help develop teamwork and sportsmanship, along with time on the playground. Water games will be included to stay cool in the summer heat. Don't forget to wear your sunscreen, dress appropriately and bring water!

Go Team!

Leave behind the TV and video games and come join us in the gym and on the field for some healthy athletic fun. You will have the opportunity to participate in a variety of team sports such as wiffleball, tug-o-war, soccer and more! We will focus on sportsmanship and teamwork.

Goin' On Safari

This class will take students on a wild safari by exploring many unique animals from around the world - some of them who live in our very own zoos. Students will create art projects, read stories, play games and much more to learn about their favorite animals!

Heroes in History

You've heard their names countless times. Get to know the most important leaders of all time. Where did they grow up? What did they do to make them so famous? What makes someone a hero anyhow? If you love learning about history, this course will be right up your alley!

Kindergarten Fun and Games

Join us as we take it outside for a variety of games and activities that are sure to keep your child smiling! Children will take part in imaginative games and develop social skills. Water games will be included to stay cool in the summer heat. Don't forget to wear your sunscreen, dress appropriately and bring water!

Kids in the Kitchen

Don't ask "what's for lunch?" Let's make it ourselves! Kids' favorites as well as international foods will be prepared. Get ready to dig in, enjoy the food, gain cooking skills and have fun! The chefs will also create and design their very own cookbook from the recipes we used in this course. The kitchen classroom is the tastiest place to learn and have fun! Bon Appétit! ***If your child has food allergies we will make every effort to accommodate his/her needs, but please be aware that all ingredients are not guaranteed to be free of all various allergens.**

Kindergarten Here We Come!

Children entering Kindergarten in September 2020 will enhance their thinking skills by having them participate in exciting and stimulating activities. While bridging the gap between Pre-Kindergarten and Kindergarten, this course will include story-time, arts and crafts, literacy, fitness games and more! Through creative play and group interaction, the kindergarten children are sure to have a blast. Get Ready, Get Set Kindergarten - here we come! (Entering Kindergarten)

Lab Coat Science

Do you love exploring science and conducting experiments? Join us for a sensational 2 weeks as we explore the scientific world using interactive experiments that will be sure to spark your imagination. Let's get hands-on, creative, experimental, and maybe a bit messy when we explore various scientific topics! Don't miss out on this opportunity - Let the discovery and exploration begin!

Math Fun & Games

If you like great math games and puzzles too; we have a workshop that is just right for you. We'll roll the dice, play cards, make puzzles, and even order from the Mathematic Diner. These games will reinforce your math fact fluency and strengthen your problem-solving skills. Topics will include the major operations, probability, geometry, money, and more. Instruction will be supplemented with math literature as well. The best part is that you get to go home with directions for the games learned and play them with your family and friends.

MARVELous Heroes

Are you an Avenger? Do you wish you could join forces with HULK, IRONMAN, CAPTAIN AMERICA or CAPTAIN MARVEL? Sign up to delve into these heroic characters, critique movie scenes, analyze what makes a hero a hero and design a new MARVEL hero. We can't wait to hear who your heroes are!

Music, Movement and More

Children will work on their fine and gross motor skills by participating in movement related activities. Musical hoops, soccer and sponge relays are amongst some of the high-energy activities keeping students running and jumping!

Outdoor Explorers

Come explore in the great outdoors! We will become one with nature as we spend time outside in the sun. We'll be hunting, gathering and laughing our way through the alphabet in this fun, hand-on, exploratory class that combines science and adventure.

Primary Super Science

Calling all mini-Einsteins! Join us for an exciting 2 weeks as we explore the scientific world using interactive experiments that will be sure to spark your child's imagination. Let's get hands-on, creative, experimental, and maybe a bit messy when we explore buoyancy, plants and bugs! Let the discovery and exploration begin!

Rocketry Camp

This course is for anyone who has looked up at the stars and wondered how amazing it must be to fly up there. In this class you will learn all about different types of flight, blimps, aerodynamics, living in space, as well as other fascinating topics. Students will design, create, and launch their own rockets in this exciting class. 3,2,1...Blast off!

Spotlight on Theater

Do you crave the spotlight? Do you want to improve your acting skills? Well, now is your chance to be in the limelight! Students will learn various acting skills and stand in the spotlight for a class filled with the magic of theater. Students will create and act out commercials, bring books to life and perform for their peers by creating their own props and scenery. Come join us as we perform and light up the stage!

Storybook STEAM

In this class, you will be working like engineers to create and solve problems from some of our favorite storybooks! We will be going on adventures through stories such as "How I became a Pirate", "The Three Little Pigs", "Rapunzel", "Horton Hatches the Egg" & "The Most Magnificent Thing". You will work together to solve the character's problem by creating something. If you love reading and creating, this is the class for you!

Strategic Games & Challenges

Do you like to play board games and solve puzzles? If so, join us for an exciting as we challenge our mental capacities to compete in popular board games and solve puzzles! This hands-on class will include activities that incorporate aspects of socialization, fair play, and collaboration. Students will engage in challenges like chess, scramble, checkers, and 3-D puzzles. All will be sure to have a blast!

Storytime Arts & Crafts

Come in for a story, and leave with a craft! Students will enjoy a fun-filled session combining a love for literacy, laughter and creativity. Students will create masks, puppets and more!

Summer Arts and Crafts

Do you like to paint, draw, and build things out of clay? In this class we will explore different cultures and artists around the world. If you love art and enjoy learning new things, then this is the class for you! Just remember to bring your imagination and let the fun begin. We might get messy, so don't forget to bring your smock!

Wearable Art

Make your statement and wear it! Design your own bracelets, t-shirts, wristbands, headbands and more!

World of Polymers

Stretching, oozing, bouncing and shrinking! Do you love science? Then you will love this hands-on class where students will create slime, shrinky dinks and more! You will learn how to make bouncy balls and bubble gum, create suncatchers and dinosaur eggs and make snow indoors.

Where in the World...?

Bon Voyage! Students will embark on a journey to a new country every day! They will learn about the cultures of different countries and make recipes, create art projects and learn new words from different places! Travel to Italy and make delicious pasta or pizza, travel to Japan and learn to make origami. The whole world awaits you!

Yoga and Fitness

Introducing children to yoga at an early age can help them in many ways! It will help manage stress, build concentration, increase confidence and encourage a healthy lifestyle! This class will teach students basic poses and breathing techniques. Students will also participate in team building fitness games to get them moving and grooving! (Bring your own yoga mat)

Yoga for Young Ones

This introductory class will teach students basic poses and breathing techniques through a guided fun-filled session sure to enlighten! (Bring your own yoga mat)
