COURSE DESCRIPTIONS ON BACK

COURSE DESCRIPTIONS

Art, Paper, Scissors

Join us in creating a variety of sensational projects. Get creative and have fun while using materials such as watercolors, clay, paint and more. Preserve your clothes and bring a smock!

Art Around the World

Explore different cultures from around the world and recreate their art using modern methods and materials. We will experience making a variety of things from Aboriginal Dot Paintings to Zulu Tribe Masks and much, much, much more.

Awesome Art Activities

Come join the fun and let your creativity soar! You will create and take home beautiful works of art using paints, clay and more!

Box City

Using boxes, construct your own dream city. Build tall buildings, department stores, garages, automobile dealerships and shops. Add street signs, roads, or whatever you like! Let your imagination run wild as you build your own city!

Coding and Technology

Have you ever wondered how to code a video game, create animations or your own story on the computer? Want to have fun on the computer and get creative? We will explore computer science through coding, educational websites, videos and unplugged lessons.

Crazy Scientists

Science is experimental, exploratory and exciting! It's about the "Aha!" moments in life, like when you figure out how something works or when you're amazed by the result of an awesome experiment. You will have the opportunity to learn about science through our interactive and hands-on science activities that will be sure to spark your imagination! So c'mon and get messy! Let the discovery and exploration begin!

Creatively Pinterest:

Get ready to get "crafty" and use your imagination for a summer filled with enjoyable DIY crafts! Young artists will make a variety of summer themed crafts as seen on Pinterest! We will draw, paint, collage, sculpt, and so much more! DIY arts and crafts make great gifts and are a lot of fun!

Fitness Fun in the Sun

Fitness Fun in the Sun is a program where children will participate in various games and activities that will help students stay active! Children will have fun taking part in creative games that help develop different fundamental skills for all age levels! Students will enjoy cooperative games to help develop teamwork and sportsmanship, along with time on the playground. Water games will be included to stay cool in the summer heat. Don't forget to wear your sunscreen, dress appropriately and bring water!

Kinder- Funfest

The Kinder Funfest is class of fun activities for kindergarten children including story-time, arts and crafts and a variety of games. Through creative play and group interaction, the kindergarten children are guaranteed to have FUN! Children are encouraged to wear old clothes as we dive into hands-on activities. Hope to see you there!

LEGO Land

Are you looney for LEGOS? In this fun and creative class, kids have an opportunity to explore how to build various LEGO designs using an assortment of LEGOS. Kids will be provided with a selection of LEGO project choices daily, and will challenge their problem-solving skills to recreate popular designs. They will have the opportunity to be creative and make their own designs as well! Have fun and become a master at building with LEGOS!

Music, Movement and More

Children will work on their fine and gross motor skills by participating in movement related activities. Music and instruments, movement and dance, hoops, balls, and more are among some of the high-energy activities keeping students moving and grooving both indoors and out!

Outdoor Adventure

Are you looking forward to a fun and exciting summer? Well get ready with outdoor adventures, which will get your heart pumping and keep the smiles and laughter coming. In this class you will play fun games like Ultimate Frisbee, whiffle ball, lawn bowling, and so much more. Don't worry about the rain, as we have plenty of fun and exciting indoor games to play as well. So if you're ready for another thrilling and exciting summer, then sign up today for Outdoor Adventures and let the fun begin.

Painting and Drawing

Do you like to paint and draw? In this class we will explore different artists and painting techniques from around the world. If you love art and enjoy learning new things, then this is the class for you! Just remember to bring your imagination and let the fun begin. We might get messy, so don't forget to bring your smock!

Primary STEAM

This course is designed to enhance children's thinking skills by having them participate in exciting and stimulating science, technology, engineering, art and mathematics activities. Children will build projects, spend time in observation stations and use art materials to record experiences.

Sport Tactic

Students who enroll in this class will be sure to have a ball! Students will also participate in contests like "homerun derby", "around the world basketball", and "longest throw competition". This course is for students who enjoy learning new sports, games, and want to develop good sportsmanship.

Sports Fitness and Fun

Run a wacky race, toss bean bags at targets, play basketball and much more. Have loads of fun with your friends while improving physical fitness and teamwork skills. Enjoy the benefits of a healthy, active lifestyle while learning cooperation skills through physical fitness activities and sports. Leave behind the T.V. and video games and come join in the action! THE FUN IS HERE!

Spotlight on Theater

Do you crave the spotlight? Do you want to improve your acting skills? Well, now is your chance to be in the limelight! Students will learn various acting skills, improvisation, and stand in the spotlight for a class filled with the magic of theater and musical theatre. Students will create and act out commercials, bring books to life and perform for their peers by creating their own props and scenery. Come join us as we perform and light up the stage!

STEAM Challenge

Do you like to explore and discover new things? If so, join us as we explore the world using interactive experiments that will be sure to spark your imagination. This hands-on class will include activities that incorporate aspects of science, technology, engineering, art and math (STEAM). Students will engage in challenges like building bridges and boats while testing their strength and more. All will be sure to have a blast, so let the challenge begin!

Storybook STEAM

In this class, you will be working like engineers to create and solve problems from some of our favorite storybooks! We will be going on adventures through stories such as "How I became a Pirate", "The Three Little Pigs", "Rapunzel", "Horton Hatches the Egg" & "The Most Magnificent Thing". You will work together to solve the character's problem by creating something. If you love reading and creating, this is the class for you!

Wearable Art

Make your statement and wear it! Design your own bracelets, t-shirts, wristbands, headbands and more!

World of Polymers

Stretching, oozing, bouncing and shrinking! Do you love science? Then you will love this hands-on class where students will create slime, Shrinky-Dinks and more! You will learn how to make bouncy balls, slime and bubble gum, create suncatchers and dinosaur eggs and make snow indoors.

Yoga and Party Dances

Introducing children to yoga at an early age can help them in many ways! It will help manage stress, build concentration, increase confidence and encourage a healthy lifestyle! This class will teach students basic poses and breathing techniques. Students will also participate in party dance lessons, Cha Cha Slide, Cupid Shuffle, Macarena, Electric Slide, Cotton-Eyed Joe and more. We will be both indoors and out!
