

RIVERHEAD COURSE DESCRIPTIONS

Coding and Technology

Have you ever wondered how to code a video game, create animations or your own story on the computer? Want to have fun on the computer and get creative? We will explore computer science through coding, educational websites, videos and unplugged lessons.

Extreme Sports

Run a wacky race, toss bean bags at targets, play basketball and much more. Have loads of fun with your friends while improving physical fitness and teamwork skills. Enjoy the benefits of a healthy, active lifestyle while learning cooperation skills through physical fitness activities and sports. Leave behind the T.V. and video games and come join in the action! THE FUN IS HERE!

Extreme STEM

This course is designed to enhance children's thinking skills by having them participate in exciting and stimulating science activities. Students will learn concepts in building and design as well as other scientific concepts. Students will use exciting supplies and resources to build and explore the world of science, technology, engineering and math.

Fitness Fun in the Sun

Fitness Fun in the Sun is a program where children will participate in various games and activities that will help students stay active. Children will have fun taking part in creative games that help develop different fundamental skills for all age levels! Students will enjoy cooperative games to help develop teamwork and sportsmanship, along with time on the playground. Water games will be included to stay cool in the summer heat. Don't forget to wear your sunscreen, dress appropriately, and bring water. Please join us for some fun in the sun!

Fun with Nature

Do you love to collect flowers, rocks, sticks, and leaves but you're not sure what to do with them? Let's explore the nature around us and create art and crafts with your findings. Be prepared to get a little messy during this fun and hands-on class. Students will create bird feeders, sun catchers, plant seeds, go on scavenger hunts, and MORE! Join this adventure and get creative.

Kindergarten Primary STEAM

Children entering Kindergarten in September 2021 will feel the heat with "Summertime STEAM." This course is designed to enhance children's thinking skills by having them participate in exciting and stimulating science, technology, engineering, art and mathematics activities. While focusing on the skills needed in Kindergarten, children will build projects, spend time in observations stations and use art materials to record experiences.

Kindergarten Read All About It

Children entering Kindergarten in September 2021 will be stimulated with engaging stories, music, and crafts to occupy warm summer days. The class is designed to bolster literacy skills essential to Kindergarten and work collaboratively with the K STEAM class.

Makerspace-STEAM

Here is a fun opportunity to work independently and collaboratively on STEAM-based activities! Through hands-on tasks we need you to bring your creative minds to invent, create, and problem solve. Are you up for the challenge?

Musical Theater

Singing, acting and movement! Students will be singing and acting in this creative class. Students are encouraged to participate regardless of singing/acting experience.

Music Lessons

Improve your skills and receive a comprehensive understanding of the instruments including proper playing technique, scales, reading music and playing in an ensemble.

Sports Fitness and Fun

Run a wacky race, toss bean bags at targets, play basketball and much more. Have loads of fun with your friends while improving physical fitness and teamwork skills. Enjoy the benefits of a healthy, active lifestyle while learning cooperation skills through physical fitness activities and sports. Leave behind the T.V. and video games and come join in the action! THE FUN IS HERE!

Spotlight on Theatre

Do you crave the spotlight? Do you want to improve your acting skills? Well, now is your chance to be in the limelight! Students will learn various acting skills and stand in the spotlight for a summer filled with the magic of theater. Students will create and act out commercials, bring books to life and perform for peers by creating their own props and scenery. Returning students will enjoy new performances this summer. Come join us as we perform and light up the stage!

Summer Arts and Crafts

If you enjoy arts and crafts and love summer, then this is the course for you! Using summer fun themes like beaches, shells, fish, boats and lighthouses we will create a variety of sun-sational projects. In this course, we will use a variety of mediums to create beautiful works of art! We will use materials such as watercolors, clay, paint and more. Let your imagination soar as you explore summer favorites.

Taste the Rainbow

Come join us and explore the possibilities of tasting the rainbow! Discover exciting ways to work with others to create different recipes. These colorful foods will help you grow strong and healthy and you will get the chance to create a cookbook full of these wonderful ingredients. We will discuss the benefits of these foods, and we will even be able to eat them!

Upcycling Art

In Upcycling Art, we will combine creativity and environmentalism. We will take everyday items that would normally be thrown out or recycled and turn them into masterpieces. Most importantly, we will have fun!
