# SCOPE EDUCATION SERVICES

## COURSE DESCRIPTIONS:

### **Arts and Crafts**

Do you have an interest in the spring and love art? This class is for you. We will complete eight different arts and crafts projects all around the spring season. We will do painting, origami, and other forms of artistic expression all centering around spring season and holidays.

### **Coding and Technology**

This introductory course will feature an outstanding curriculum focusing on problem based solving, logical thinking, creativity, resilience, persistence and boost your child's confidence! Students will code with Minecraft, Star Wars, and Frozen block-based tutorial programs.

### **Daytime Paint Night**

Students will learn through step by step tutorial based instruction on how to create and paint their own canvas creations. Students will bring home their artistic creations and enhance their expressive art skills.

### **ELA and Math Support:**

These foundational skills classes will highlight and feature grade level skills and strategies in ELA, ENL and mathematics. They are designed to support your child in their academic growth and development. Get a head start by reviewing and strengthening important prerequisite skills for class.

### **Lego Engineering**

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

### **Primary STEAM**

Do you love to create new designs or to solve challenging problems? Work with teams and let your curiosity and creativity soar, as we explore the world of SCIENCE, TECHNOLOGY, ENGINEERING, ART and MATH! Students will explore topics in STEAM and science to explore their natural world while creating exciting projects.

### **Rocketry and Retro-Science**

Science is exploratory and exciting! It's about the "Aha!" moments in life, like when you figure out how something works or when you're amazed by the result of an awesome experiment. You will have the opportunity to learn about science through our interactive hands-on science activities that will be sure to spark your imagination! Students will learn about Newton's laws of motion and build and launch their own model rocket.

### **Sculpting & Clay Creations**

Join an amazing art instructor, as she teaches students different techniques and styles with clay sculpting. Students will have the opportunity to create projects while learning many different artistic styles. Students will create their own masterpieces from a skilled and certified art-instructor with a focus on mindfulness and artistic expression.

### **SAT PREP COURSE**

This course concentrates on SAT reading, vocabulary and writing skills along with math practice. Students will take practice exams and learn strategies to answer the different types of questions.

### **World-Wide-Cooking**

Who likes to eat? Who likes to travel? Ever wonder what people in Italy are eating for lunch? What about the meals they serve in China or Greece? In our multicultural classroom, we will be taking a tasty tour of global cuisines with YOU as the head chef!
