SCOPE EDUCATION SERVICES

A PATH TO ENDLESS POSSIBILITIES

Course Descriptions

ELA and Math Skill Building Opportunity

ELA

This ELA class will help students in reading fluency, vocabulary, comprehension, and writing skills and strategies. There will be one hour of ELA instruction delivered by a certified teacher. Students will read highly motivating and interesting texts as they explore reading and writing strategies including the main idea, drawing conclusions, making inferences, and formulating claims based on reasons and evidence.

Mathematics

This one-hour class will feature grade-level mathematical skills and strategies. It is designed to support students in their mathematical growth and development by reviewing and strengthening important prerequisite skills. Work with a certified teacher to explore mathematical topics and concepts.
