# SCOPE EDUCATION SERVICES

## K-1 Course Descriptions:

### **Adventure Sports & Scavenger Hunts:**

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

### **Disney Music & Art Experience:**

Come along on a magic carpet ride as we show you a whole new world of music and art from Walt Disney. You will learn famous songs, music and movement of Disney productions featuring Frozen, Aladdin, Lion King, Beauty and the Beast and more. You will whistle while you work and sing along as we also complete cartooning and art projects related to Disney characters and scenes. Children will be immersed in a world of art, music and cartooning.

### **Edible Science:**

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Construct the layers of the Earth and claim you have eaten the world! Come join us and learn about Science and then eat what you learned!

### **Lego Engineering & Coding**

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

### **Magic Masters:**

In this introductory magic class, students will learn the art of illusion. Students will learn how to vanish an object, transform items into a different item, make objects disappear and reappear and learn many card and money tricks to show off! Students will practice to be able to put on a small magic show at the end of the semester. Students will be provided demonstrations, instructions and opportunities to practice!

### **Primary Coding and Technology**

This introductory course will feature an outstanding curriculum focusing on problem based solving, logical thinking, creativity, resilience, persistence and boost your child's confidence! Students will code with Minecraft, Star Wars, and Frozen block-based tutorial programs.

### **Summer Arts & Crafts:**

If you enjoy arts and crafts and love summer, then this is the course for you! Using summer fun themes like beaches, shells, fish, boats and lighthouses we will create a variety of sun-sational projects. In this course, we will use a variety of mediums to create beautiful works of art! We will use materials such as watercolors, clay, paint and more. Let your imagination soar as you explore summer favorites.

### **Team Sports Clinic:**

This class will focus on teamwork and developing social and athletic skills in our primary aged students. Students will learn skills in soccer, basketball, kickball and other team related field and indoor sports. Students will develop their social skills by following directions and working as a team.

# SCOPE EDUCATION SERVICES

## Grades 2-3 Course Descriptions:

### **Basketball Boot Camp**

Calling all basketball and future basketball players! This class is for you! This class teaches students different skills and strategies to mastering the sport of basketball. Students will learn from skilled athletes and compete in competitive game play and tournament style play throughout the semester!

### **Lego, Robotics, and Coding**

This introductory course will feature an outstanding curriculum focusing on problem based solving, logical thinking, creativity, resilience, persistence and boost your child's confidence! Students will code with Minecraft, Star Wars, and Frozen block-based tutorial programs

### **Edible Science:**

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Construct the layers of the Earth and claim you have eaten the world! Come join us and learn about Science and then eat what you learned!

### **Jewelry & Fashion Design:**

In this jewelry making class, students learn with friends the art of jewelry and bracelet design. Kids can use lanyard, rainbow loom, and string bracelets to be creative and design fashionable jewelry to take home and share with friends and families. Children will also learn skills and artistic techniques to design and sketch clothing.

### **Lego Engineering**

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

### **Oriental Art & Origami:**

In this course students will learn the beauty of origami and art, music and culture from the multiple cultures from East Asia to the Middle East. Students will learn to appreciate the beautiful culture and art of eastern countries such as Japan, Korea, China, India, and Persia. From Origami cranes, tigers, dragons and sushi and lamps to Arabic geometric tile design, to Chinese and Persian Calligraphy, students will learn culture, language, and most importantly expressive art styles from each region while producing origami and art projects of their own every lesson. Students will also learn wet-folding origami. If you love art and learning about culture- this course is for you!

### **Sculpting & Clay Creations:**

Join an amazing art instructor, as she teaches students different techniques and styles with clay sculpting. Students will have the opportunity to create projects while learning many different artistic styles. Students will create their own masterpieces from a skilled and certified art-instructor with a focus on mindfulness and artistic expression.

### **Summer Arts & Crafts:**

If you enjoy arts and crafts and love summer, then this is the course for you! Using summer fun themes like beaches, shells, fish, boats and lighthouses we will create a variety of sun-sational projects. In this course, we will use a variety of mediums to create beautiful works of art! We will use materials such as watercolors, clay, paint and more. Let your imagination soar as you explore summer favorites.

### **Team Sports Clinic:**

This class will focus on teamwork and developing social and athletic skills in our primary aged students. Students will learn skills in soccer, basketball, kickball and other team related field and indoor sports. Students will develop their social skills by following directions and working as a team.

## Grades 4-6 Course Descriptions:

### **Chess Academy & Speed Cubing:**

Have you always wanted to learn to play chess and master opening moves? Or have you been playing for years and want to master extreme gambits and strategies? Either way this class is for you. We will play tournament style and also have a few days and lessons learning extreme speed cubing learning to solve a Rubik's cube quickly.

### **Chocolateering Chocolate STEM Engineering**

In this amazing engineering course students will utilize design thinking strategies to learn design, engineering and architectural principles totally using chocolate. Students will design, create and build fascinating engineering structures out of chocolate such as homes, boats, bridges, skyscrapers and more! We promise this will be the most delicious and enlightening science class you'll ever take.

### **Comic Book & Graphic Novel Design:**

Do you love comic books and graphic novels? Are you looking to become a better writer and designer? This course will teach you two skills, writing and sketching. You will become a better writer, story teller, and also learn sketching and drawing techniques. By the end of this course you will have your own finalized and published graphic novel ready to go and share with friends and family. If you love art, design, and want to become a great writer- this course is for you!

### **Extreme STEAM & Makerspace:**

Do you love to create new designs or to solve challenging problems? Work with teams and let your curiosity and creativity soar, as we explore the world of SCIENCE, TECHNOLOGY, ENGINEERING, ART and MATH!

### **International Adventure Sports:**

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

### **Jewelry & Fashion Design:**

In this jewelry making class, students learn with friends the art of jewelry and bracelet design. Kids can use lanyard, rainbow loom, and string bracelets to be creative and design fashionable jewelry to take home and share with friends and families. Children will also learn skills and artistic techniques to design and sketch clothing.

### **Paint Night in the AM:**

Students will learn through step by step tutorial based instruction on how to create and paint their own canvas creations. Students will bring home their artistic creations and enhance their expressive art skills.

### **Rocketry and Retro-Science**

Science is exploratory and exciting! It's about the "Aha!" moments in life, like when you figure out how something works or when you're amazed by the result of an awesome experiment. You will have the opportunity to learn about science through our interactive hands-on science activities that will be sure to spark your imagination! Students will learn about Newton's laws of motion and build their own rocket!
