Registration online only at: https://scopeonline.ce.eleyo.com/

SCOPE EDUCATION SERVICES

K-2 Course Descriptions:

Adventure Sports & Scavenger Hunts:

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

Disney Music & Art Experience:

Come along on a magic carpet ride as we show you a whole new world of music and art from Walt Disney. You will learn famous songs, music and movement of Disney productions featuring Frozen, Aladdin, Lion King, Beauty and the Beast and more. You will whistle while you work and sing along as we also complete cartooning and art projects related to Disney characters and scenes. Children will be immersed in a world of art, music and cartooning.

Edible Science:

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Construct the layers of the Earth and claim you have eaten the world! Come join us and learn about Science and then eat what you learned!

ELA/Math Support:

This support class will help students in decoding, fluency, vocabulary and comprehension and will highlight and feature grade level skills and strategies in math. It is designed to support your child in their mathematical growth and development. Get a head start by reviewing and strengthening important prerequisite skills for ELA and math class

Lego Engineering

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

Magic Masters:

In this introductory magic class, students will learn the art of illusion. Students will learn how to vanish an object, transform items into a different item, make objects disappear and reappear and learn many card and money tricks to show off! Students will practice to be able to put on a small magic show at the end of the semester. Students will be provided demonstrations, instructions and opportunities to practice!

Sculpting & Clay Creations:

Join an amazing art instructor, as she teaches students different techniques and styles with clay sculpting. Students will have the opportunity to create projects while learning many different artistic styles. Students will create their own masterpieces from a skilled and certified art-instructor with a focus on mindfulness and artistic expression.

Summer Arts & Crafts:

If you enjoy arts and crafts and love summer, then this is the course for you! Using summer fun themes like beaches, shells, fish, boats and lighthouses we will create a variety of sun-sational projects. In this course, we will use a variety of mediums to create beautiful works of art! We will use materials such as watercolors, clay, paint and more. Let your imagination soar as you explore summer favorites.

World Cup Soccer Clinic:

This class will focus on teamwork and developing social and athletic skills in our primary aged students. Students will learn skills in soccer, basketball, kickball and other team related field and indoor sports. Students will develop their social skills by following directions and working as a team.

SCOPE EDUCATION SERVICES

Grades 3-5 Course Descriptions:

Comic Book & Graphic Novel Design:

Do you love comic books and graphic novels? Are you looking to become a better writer and designer? This course will teach you two skills, writing and sketching. You will become a better writer, story teller, and also learn sketching and drawing techniques. By the end of this course you will have your own finalized and published graphic novel ready to go and share with friends and family. If you love art, design, and want to become a great writer- this course is for you!

Dungeons and Dragons Epic Class:

There's no better way to get into Dungeons and Dragons than joining this epic narrative game style epic class from SCOPE. Whether you're brand new to Dungeons and Dragons, or have enjoyed this story-telling SAGA before, join your friends as you dip your toes into the world of Dungeons and Dragons. Join our elite dungeon master as they take you through a world of wizards, mythical creatures and heroes and villains as you use acting, story-telling and imagination to play this famous game!

Edible Science:

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Construct the layers of the Earth and claim you have eaten the world! Come join us and learn about Science and then eat what you learned!

ELA/Math Support:

This support class will help students in decoding, fluency, vocabulary and comprehension and will highlight and feature grade level skills and strategies in math. It is designed to support your child in their mathematical growth and development. Get a head start by reviewing and strengthening important prerequisite skills for ELA and math class.

Hip Hop Dance for All:

Give hip hop dance a try in this flexible beginner Hip Hop class where students will learn the basic fundamentals of hip hop through technical teachings, creative movement and choreography to hip hop music at their own pace!

International Adventure Sports:

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

Jewelry & Fashion Design:

In this jewelry making class, students learn with friends the art of jewelry and bracelet design. Kids can use lanyard, rainbow loom, and string bracelets to be creative and design fashionable jewelry to take home and share with friends and families. Children will also learn skills and artistic techniques to design and sketch clothing.

Lego Engineering

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

Rocketry and Retro-Science

Science is exploratory and exciting! It's about the "Aha!" moments in life, like when you figure out how something works or when you're amazed by the result of an awesome experiment. You will have the opportunity to learn about science through our interactive hands-on science activities that will be sure to spark your imagination! Students will learn about Newton's laws of motion and build their own rocket!

Upcycle Art:

Turn garbage cans into gold. Teach the importance of renewing and recycling. Turn old items into something new. This fun class is for kids who want to take unused items and restore into a work of art. Join the recycling and renew club!

World-Basketball-Clinic:

Calling all basketball and future basketball players! This class is for you! This class teaches students different skills and strategies to mastering the sport of basketball. Students will learn from skilled athletes and compete in competitive game play and tournament style play throughout the semester!

World Wide Cooking:

Who likes to eat? Who likes to travel? Ever wonder what people in Italy are eating for lunch? What about the meals they serve in China or Greece? In our multicultural classroom, we will be taking a tasty tour of global cuisines with YOU as the head chef!

Grades 6-8 Course Descriptions:

Chocolateering Chocolate STEM Engineering

In this amazing engineering course students will utilize design thinking strategies to learn design, engineering and architectural principles totally using chocolate. Students will design, create and build fascinating engineering structures out of chocolate such as homes, boats, bridges, skyscrapers and more! We promise this will be the most delicious and enlightening science class you'll ever take.

ELA/Math Support:

This support class will help students in decoding, fluency, vocabulary and comprehension and will highlight and feature grade level skills and strategies in math. It is designed to support your child in their mathematical growth and development. Get a head start by reviewing and strengthening important prerequisite skills for ELA and math class.

Extreme Sports:

In this athletic training boot-camp, join friends and you build muscle endurance and tone. Work on cardiovascular and team sport exercises and stretches. You will also compete in team sports.

Extreme STEAM & Makerspace:

Do you love to create new designs or to solve challenging problems? Work with teams and let your curiosity and creativity soar, as we explore the world of SCIENCE, TECHNOLOGY, ENGINEERING, ART and MATH!

Paint Night in the AM:

Students will learn through step by step tutorial based instruction on how to create and paint their own canvas creations. Students will bring home their artistic creations and enhance their expressive art skills.

World Basketball Clinic:

Calling all basketball and future basketball players! This class is for you! This class teaches students different skills and strategies to mastering the sport of basketball. Students will learn from skilled athletes and compete in competitive game play and tournament style play throughout the semester!

World Wide Cooking:

Who likes to eat? Who likes to travel? Ever wonder what people in Italy are eating for lunch? What about the meals they serve in China or Greece? In our multicultural classroom, we will be taking a tasty tour of global cuisines with YOU as the head chef!

Grades 9-12 Course Descriptions

College Essay Writing & The College Application Process:

Learn how to write your personal college admissions essay. Improve your chances of being admitted to college by writing a successful essay. A well thought out essay shows the admissions committee who you are-more than just grades and test scores. Students will also have a greater understanding of how college's review applications. The resume/activity sheet will be discussed and the supplemental sections will also be scrutinized.

ELA/Math Support:

This support class will help students in decoding, fluency, vocabulary and comprehension and will highlight and feature grade level skills and strategies in math. It is designed to support your child in their mathematical growth and development. Get a head start by reviewing and strengthening important prerequisite skills for ELA and math class.

Movie Making & Cinematography:

The purpose of this course is to provide a project-based visual arts program, which guides students and aspiring video and film makers in the production of film, video, and new media projects for business and entertainment. Students experience both the creative and technical aspects of filmmaking and are instructed on the three stages of project creation. In pre-production, students learn the basic principles of story development, screenplay writing and storyboarding. If you love film and videos, and want to learn how to make your own, this course is for you!

SAT Math/Verbal Prep Course:

This course concentrates on SAT reading, vocabulary and writing skills along with math practice. Students will take practice exams and learn strategies to answer the different types of questions.

<u>Shark Tank & Entrepreneurship:</u>
Join friends as you build a business from scratch. You will learn the skills and requirements for starting a business and learn how to write a financial plan and business proposal. You will work in teams and compete for a loan from the sharks in this shark tank style course.
