## Summer Around the World 2022

### SCOPE EDUCATION SERVICES

#### ACCOMPSETT MIDDLE SCHOOL

#### STUDENTS ENTERING GRADES K-6—TWO FREE CLASSES!

**\*PLEASE NOTE:** This is being funded by the short term availability of ARP and ESSER funds meant to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment designed to address students' academic, social, and emotional needs. Each district student is entitled to take **TWO CLASSES FREE OF CHARGE**. If your child would like to take more than 2 classes, additional payment is required.

# SCOPE EDUCATION SERVICES

## COURSE DESCRIPTIONS:

### **Adventure Sports & Scavenger Hunts:**

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

### **Broadway & Theater:**

Do you love Broadway music and crave the spotlight? Join us in learning the songs and music of your favorite broadways shows! Students will learn acting, improvisation and singing skills. They will also create and act out commercials, bring books to life and perform for peers. This is a double period class and students are required to stay for both periods.

### **Coding and Technology :**

This introductory course will feature an outstanding curriculum focusing on problem based solving, logical thinking, creativity, resilience, persistence and boost your child's confidence! Students will code with Minecraft, Star Wars, and Frozen block-based tutorial programs

### **Edible Science:**

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Construct the layers of the Earth and claim you have eaten the world! Come join us and learn about Science and then eat what you learned!

### **Kindergarten Read All About It!:**

Children entering Kindergarten in September will be stimulated with engaging stories, music, and crafts to occupy warm summer days. The class is designed to bolster literacy skills essential to kindergarten and work collaboratively within the K STEAM class. Students will work on hands-on STEAM projects as they read, listen, and interpret their favorite stories

### **Primary STEAM**

Do you love to create new designs or to solve challenging problems? Work with teams and let your curiosity and creativity soar, as we explore the world of SCIENCE, TECHNOLOGY, ENGINEERING, ART and MATH! Students will explore topics in STEAM and science to explore their natural world while creating exciting projects.

### **Lego Engineering:**

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

### **Makerspace STEAM**

This is a collaborative, hands-on class where you will think, plan, design and create using an assortment of materials. This is a project-driven workshop where you will try out solutions and use problem solving strategies as you collaborate with peers. Activities may include engineering bridges and structures, creating marble runs, playdough circuits and mini propelled cars.

### **Oriental Art & Origami:**

In this course students will learn the beauty of origami and art, music and culture from the multiple cultures from East Asia to the Middle East. Students will learn to appreciate the beautiful culture and art of eastern countries such as Japan, Korea, China, India, and Persia. From Origami cranes, tigers, dragons and sushi and lamps to Arabic geometric tile design, to Chinese and Persian Calligraphy, students will learn culture, language, and most importantly expressive art styles from each region while producing origami and art projects of their own every lesson. Students will also learn wet-folding origami. If you love art and learning about culture- this course is for you!

### **Rocketry and Retro-Science**

Science is exploratory and exciting! It's about the "Aha!" moments in life, like when you figure out how something works or when you're amazed by the result of an awesome experiment. You will have the opportunity to learn about science through our interactive hands-on science activities that will be sure to spark your imagination! Students will learn about Newton's laws of motion and build rockets of their own to launch with their friends!

### **Sculpting & Clay Creations:**

Join an amazing art instructor, as she teaches students different techniques and styles with clay sculpting. Students will have the opportunity to create projects while learning many different artistic styles. Students will create their own masterpieces from a skilled and certified art-instructor with a focus on mindfulness and artistic expression.

### **Summer Arts & Crafts**

If you enjoy arts and crafts and love summer, then this is the course for you! Using summer fun themes like beaches, shells, fish, boats and lighthouses we will create a variety of sun-sational projects. In this course, we will use a variety of mediums to create beautiful works of art! We will use materials such as watercolors, clay, paint and more. Let your imagination soar as you explore summer favorites.

### **Team Sports Clinic:**

Come play with your friends in this extreme sports class. You will learn foundational skills in indoor and outdoor sports. Sports include team sports and competition style relay races.

### **World-Wide-Cooking:**

Who likes to eat? Who likes to travel? Ever wonder what people in Italy are eating for lunch? What about the meals they serve in China or Greece? In our multicultural classroom, we will be taking a tasty tour of global cuisines with YOU as the head chef!
