SMITHTOWN 2022-2023 SENSATIONAL SCIENCE

Welcome back science lovers! Sensational Science is back with 4 ALL NEW fun and educational science clubs. During each club our young scientists will explore the world of science. They will perform hands-on experiments on the topics of chemistry, physics, life science, earth science, and problem solving. Best of all, not only will they leave with the knowledge of science, they will be able to bring home most of their creations. On top of that, they will not repeat a single experiment for the whole year!

SESSION 1

GRADES 2-5

8:20 – 9:20 AM

School is back in session. The fall season is here. Join us for Sensational Science 1 as we perform some fun “magic” themed science experiments. During this club, our “scientists” will explore the world of chemistry and physics. Students will explore special polymers, create a creepy slime, and investigate the world of magnets.
