

SMITHTOWN SUMMER ROBOTICS

FIRST LEGO LEAGUE

This class is designed for students interested and eager to learn about the Smithtown Robotics Program. It will allow students to become familiar with the robotic engineering process while strengthening the foundational skills necessary for future robotics and coding experiences. First Lego League is an introduction to Science, Technology, Engineering and Math (STEM). The program is geared towards strengthening real-world problem solving skills. It will enhance coding skills as well as robotic engineering and design through hands-on learning opportunities.

Incoming 6th-8th Grade Students

August 7 - 18, 2023

9:00 AM - 12:00 PM

Smithtown High School East

\$299.00
