

## WHEN CAN I REGISTER for 24/25 Universal Pre-Kindergarten?

Students are selected to participate in the Universal Pre-Kindergarten program through a lottery selection process. Lottery registration occurs through the participating school district.

Please check your school district's website often beginning in January and look for information about how to register your child for the UPK lottery for the 24-25 school year. The deadline for registration varies by school district.

If your child is selected in the UPK lottery you will receive information from SCOPE regarding your child's UPK program and at that time you will be asked to register your child with SCOPE Education Services.

**Your child must turn 4  
years old on or before  
December 1, 2024 to be  
eligible for the lottery**
