SCOPE ENRICHMENT

SATURDAY STEM

SPLASH & SCALES: OCEAN ADVENTURE

Dive into the world of animals, beaches, and ocean life in Splash & Scales, an exciting STEAM course where science, technology, engineering, art, and math come alive through ocean adventures! Each day, courseers will explore sea creatures, build sand habitats, design mini tide pools, and even create water-inspired art. From learning how fish breathe underwater to discovering the secrets of coral reefs, this workshop is packed with hands-on projects that bring the wonders of marine life and beach ecosystems to life. Join us for a class of science and creativity, where the ocean is your classroom!
