A decorative border at the top of the page features various white snowflake designs of different sizes and patterns against a dark blue background.

Winter Enrichment Course Descriptions

Animal Architects: STEM & Science Grades K-2

Young explorers will discover how animals build amazing homes in this hands-on STEM adventure! Students will learn about birds, beavers, insects, and other creatures while designing and building their own animal-inspired structures. From cozy bird nests and sturdy dams to colorful insect habitats, kids will experiment with different materials, test their creations, and see how science and engineering help animals survive. This creative, interactive course encourages problem-solving, teamwork, and imagination while bringing the natural world to life in fun, playful ways.

Broadway Snowflakes: A Winter Spectacular K-2 or 3-6

Step into the magical world of winter wonderlands! In Broadway Snowflakes, we'll sing, dance, and act out scenes from your favorite frosty productions, like Frozen, Beauty and the Beast: The Enchanted Christmas, and more. Each week, we'll explore a new story, learn songs from popular Broadway adaptations, and bring the characters to life through fun theater games and performances. If you love musical theater and dream of stepping onto the stage, this is your chance to shine and make some magical memories this winter!

Room of Riddles & Magic: Escape & Mind Challenge Adventures Grades 3-6

Welcome to the Room of Riddles—where every class is an adventure in problem-solving, teamwork, and mystery! Students in grades 3–5 will dive into escape room-style challenges filled with hidden clues, tricky puzzles, and brain-teasing games that test their logic and creativity. Each week brings a new themed “room” to escape from—whether it’s cracking a secret code, solving a detective mystery, or unlocking a lost treasure. Working together, students will strengthen their critical thinking, communication, and perseverance—all while having a blast trying to beat the clock and escape the room!
